See the Whole World
Come to an End

Woke up this morning at 2:15
Went outside to take a pee

When what do my wonder should appear

The strangest creature front of me

Large and slimy
Tentacles intelligent moves

I thought it was
Obviously from Outer Space

What was it do
I remember that you

Good Natured but hug me
Mechanically devour

Politely present a flower
With it being friend

Or will I hate the future to

See the World Come to an end.
