

^F On the way to love tonight
^A Batteries broke
But baby brought the light

^E On the way ^{B7} to love tonight

At the door of her embrace
Lost my cool
But she saved face

On the way to love tonight

^{A7} Honey tell me tell me how you feel
~~and~~ where can I put this banana peel
~~on the floor~~ standing behind the curtain
with the mind of a routine fluster

Chugging along out of sight
^{Lost} Forget our destination
But we're alright

On the way to love tonight
me is it

Dear ~~to~~ just my imagination

~~Or is there some sort of saturation~~
Or do we share the same pre-orientation
Anyway love like a color TV
Aint for you and aint for me.

Dipping down
The Dipsea trail
Keep on your shirt
Or they'll throw us in jail
On the way to love tonight.
